Full Stack Developer specializing in modern JavaScript frameworks like React and Next.js for the front-end, with strong back-end expertise in Node.js, Express, and both SQL (PostgreSQL) and NoSQL (MongoDB) databases.

### PROFESSIONAL EXPERIENCE

#### Wire Wings IT Solutions | Full Stack Developer

Apr 2025 - Present

- Developed and maintained 3 full-stack web applications (scrilla.club, jupidiameonds.com, zivarah.com) using the React.js, Node.js, Express, and PostgreSQL tech stack, ensuring robust and scalable architecture.
- Engineered and managed database schemas, queries, and migrations using Prisma ORM, optimizing data access and ensuring type safety across the backend.

#### Techpile Technology Pvt Ltd (Intern)

July 2024 - Dec 2024

- Acquired and applied comprehensive knowledge of the MERN stack (MongoDB, Express.js, React, Node.js) and Next.js by developing multiple full-stack applications throughout an intensive training program.

### PROJECTS

#### [jupidiameonds](#) | Front-End Developer (Contract) - with Full Stack Contributions

Tech: *React.js, Node.js, Express.js, PostgreSQL, Prisma ORM*

- Developed dynamic and responsive front-end components using React.js, creating an intuitive user interface for browsing jewelry collections.
- Contributed to the back-end by building and integrating Node.js/Express APIs for key functionalities including user profiles and checkout flows, reducing the back-end team's workload.
- Utilized Prisma ORM to interact with a PostgreSQL database for efficient data fetching and state management on the front end.

#### [scrilla.club](#) | Full Stack Developer (Contract) - with Full Stack Contributions

Tech: *React.js, Node.js, Express.js, PostgreSQL, Prisma ORM*

- Developed the full front-end application with React.js, creating distinct and seamless user experiences for customers, influencers, and agencies.
- Engineered the core back-end business logic in Node.js and Express to implement a complex, multi-tiered referral and commission system, accurately tracking relationships and calculating payouts.
- Designed and managed the database schema using Prisma ORM and PostgreSQL to efficiently handle user roles, hierarchical relationships, and financial transactions, ensuring data integrity and performance.
