

VINEET KATYAR

FULLSTACK DEVELOPER

Lakhimpur Kheri, UP, 262903 | vineetkatiyar98@gmail.com | 9026954638

[Github](#) | [Portfolio](#)

Full-stack developer with experience in building end-to-end applications using Next.js, React, Node.js, Express, Prisma, and PostgreSQL. Worked on production-grade platforms (Scrilla, JupiDiamonds) and built independent full-stack apps with complete ownership. Strong understanding of architecture, REST APIs, authentication, and admin dashboards

SKILLS

Frontend : React , Tailwind CSS , Nextjs, Typescript

Backend : Nodejs , Express, Prisma ORM, nextjs API routes

Databases : MongoDB, MySQL, PostgreSQL

Language : Javascript , C

Tools & Platforms : Git and GitHub, Jest, Postman, Vercel, awsS3, Razorpay, Stripe

Concepts : React-query, framer motion, Zustand and Redux toolkit

EXPERIENCE

Wire Wings IT Solutions | Full Stack Developer (April 2025 to Oct 2025)

- Worked on live e-commerce platforms including Scrilla and JupiDiamonds.
- Built responsive UI using React + Vite, integrated state management, and optimized components.
- Implemented backend modules using Node.js, Express, PostgreSQL, Prisma.
- Integrated Razorpay, Shiprocket APIs and built admin dashboards with filters, CRUD & analytics.

PROJECTS

[jupiamonds](#) | (Company Project · Jewellery E-commerce) • [case-study](#)

Tech: React+Vite, Node.js, Prisma, PostgreSQL, AWS S3

- Built full frontend including catalog, product detail, variant selection, filters & pagination.
- Implemented checkout pages with Razorpay/PayPal, currency switcher & user dashboard.
- Built admin panel: product creation with variants, metal types, gemstones, pricing logic.

[scrilla.club](#) | (Company Project · E-commerce + Wallet System) • [case-study](#)

Tech: React+Vite, Node.js, Express, Prisma, PostgreSQL, AWS S3, Razorpay, Shiprocket

- Platform where influencer/agency gets commissions on purchases.
- Built customer dashboard, wallet UI, referral pages, frontend logic, sharing flow.
- Integrated product catalog, cart, wishlist, Razorpay payments & Shiprocket shipping APIs.
- Created admin UI for product, banner, category, collection, orders & passkeys

[story-app](#) | (Full Stack · Personal Project) • [GitHub](#)

Tech: Next.js 15, Node.js, Express, Prisma, PostgreSQL, Zustand, TanStack Query, TipTap, Typescript

- Multi-author story publishing platform with MDX editor, infinite scroll feed & dashboards.
- JWT auth with author/admin roles, story CRUD, drafts, publish workflow & pagination.
- Created admin user-management panel—role update, disable user, full control.
- Prisma-based relational schema with NeonDB; clean architecture + modular API.

EDUCATION

Govt Polytechnic Mohammadi Kheri Uttar Pradesh (2019 - 2022)

Diploma in computer science and engineering
